DIAMOND GRADING REPORT

September 03, 2003

Shape and Cutting Style SQUARE MODIFIED
BRILLIANT

Measurements 6.21 x 6.04 x 4.23 mm

Weight 1.32 carat

Proportions

Depth 70.0 %

Table 76 %

Girdle THIN TO SLIGHTLY THICK

Culet NONE

Finish

Polish VERY GOOD

Symmetry GOOD

Clarity Grade SI1

Color Grade F

Fluorescence NONE

Comments:

NONE

135018401

This Report is not a guarantee, valuation or appraisal. This Report contains only the characteristics of the diamond described herein after it has been graded, tested, examined and analyzed by GIA Gem Trade Laboratory under 10X magnification, and/or has been inscribed, using the techniques and equipment available to GIA Gem Trade Laboratory at the time of the examination and/or at the time of being inscribed, including fully corrected triplet loupe and binocular microscope, master color comparison diamonds, standardized viewing environment and light source, electronic carat balance, synthetic diamond screening device, high intensity short wave fluorescence imaging system, short wave ultraviolet transmission detection system, optical measuring device, micro laser inscribing device, ProportionScope®, ultraviolet lamps, millimeter gauge, and ancillary instruments as necessary. Red symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes). Diagram is an approximate representation of the diamond, and symbols shown indicate type, position, and approximate size of clarity characteristics. All clarity characteristics may not be shown. Details of finish are not shown. The recipient of this Report may wish to consult a credentialed Jeweler or Gemologist about the importance and interrelationship of cut, color, clarity and carat weight.

GIA
GEM TRADE LABORATORY

GIA Gem Trade Laboratory is the hallmark of integrity, reliability and consistency in gemological services and research. Its reports are internationally recognized as the benchmark for gemological excellence. Since 1949, GIA has graded the vast majority of the world's fine diamonds, regardless of size.

When gem and jewelry professionals turn to GIA Gem Trade Laboratory and its staff of over 400, they place their trust in more than 50 years of GIA's standards of quality, expertise and serving customer needs.

GIA Gem Trade Laboratory's sole affiliation is with the Gemological Institute of America (GIA), the world's foremost authority in gemology. GIA is an independent, nonprofit organization which has, since 1931, dedicated itself to serving both the jewelry industry and the public through internationally acclaimed research and education.

GIA makes no compromise on excellence. All procedures are designed for optimum consistency and accuracy. Record keeping and routing techniques are meticulous to ensure each item is accorded superior security and care in handling. Most important in the equation for excellence is the training and experience of the laboratory's graders.

Headquartered in the heart of New York's famed diamond and jewelry district, with a second state-of-the-art laboratory in Carlsbad, California, GIA Gem Trade Laboratory has established itself as the world's foremost gemological laboratory, serving the gem and jewelry industry worldwide.
